

RECOMMENDED BOOK LIST FOR THE BBKA EXAMINATIONS

This list is intended as a guide for candidates. It is not intended that candidates should read all the books on the list and there are other books available, not listed, which are suitable reading. Only parts of each book may be relevant to a particular module or assessment. Candidates should therefore pay careful attention to the contents of the syllabus concerned. General information on sources of books is given at the end of the list. Books specific to individual modules or assessments are listed on the following pages. Some may be out of print and may be borrowed from association libraries.
